

## **Oracy Assessment**

### **Presentation Task: Video for Year 6 Students** Initial Assessment

#### **Instructions for Students**

You have had some preparation time to get you thinking about the sorts of things you might say to a Year 6 student about what it is like to be at this school. You should have a list of headings which will help you to remember your ideas.

When we get going you will talk for 1–2 minutes and I'll tell you when you need to stop.

First, I'm going to give you a practice go at speaking to the camera. You should try out what you have planned to say, then I'll give you a minute to think about it before we actually video you.

#### **Between practice and presentation:**

Have a think about the practice that you have just done. Think about what you did well and whether you want to do anything differently when we video you.
